DETAILED ACTION

1. Applicant elected species IX in paper no. 6 dated 4/2/2003; however, examiner believes that applicant did not fully disclose a listing of all the claims readable upon species IX. Therefore, a new restriction requirement with the claims that correspond with each species is made.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Mandrel that discharges air into a bag (claims 13, 20)
- II. Cuffing assembly that is performed simultaneously with the insertion assembly (claims 46-61)
- III. Cuffing assembly that includes fingers on opposing sides of the container or Cuffing finger that is not mounted on insertion assembly (claims 8-10, 26)
- IV. Cuffing assembly that is moving independently from at least one insertion assembly (Claims 63, 101-106)
- V. Cuffing assembly that is in operation when liner is in juxtaposition of container (Claims 85, 86, 87, 94-100)
- VI. Movable engagement head which engages bag while mandrel is in its extended position (Claims 1-7, 11, 12, 14-25, 27-45, 62, 64-84, 88-93)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eugene Kim whose telephone number is (703)308-1886. The examiner can normally be reached on Tuesday-Friday 7:30 a.m - 6:00 p.m.
